

Sleek, bold, sexy, all are attributes of the Slide sink by DEX. Slide is a bathroom basin designed to maximize aesthetics and function. Side to Side slide sink features a water flow from left to right or right to left. The slot drain then channels the water out of sight.

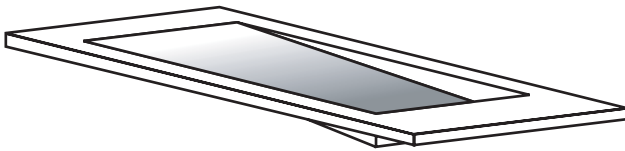

SIDE TO SIDE TROUGH BASIN

SLOT DRAIN

- Continuous Flow Slot Drain
- Faucet position flexible, determined by customer
- STSCD-1 Drain Channel included
- ADA Compliant

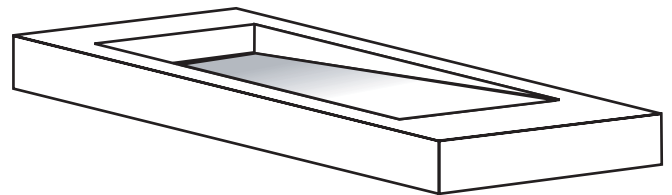

DESIGN OPTIONS

X	Vessel (above counter)
	Undermount (below counter)
X	Stand Alone / Floating
X	Integral - Standard Cabinet Install

Integral

With a standard 1½ inch edge, the basin drops inside the cabinet and the basin becomes integral with the countertop. Countertop size is a custom option (up to 9' long), as is faucet placement.

Stand Alone

This design allows the sink to "float" with an apron on 1-4 sides of the sink. It may cantilever off a wall, float between 3 walls or simply sit atop a furniture or cabinet base. Apron height is custom, as well as overall size of countertop, up to 9' long.
